Register for the Nursing Meeting

Register for the Physical Therapist Assistant Meeting

Register for the Radiography Meeting

Register for the Surgical Technology Meeting

About the Petition Process

Health Sciences Petition Meetings are required for all students entering a petitioning program. In each meeting, you will learn about the petition/application process, financial aid, program information (i.e. orientation, policies, schedules, tours), and clinicals/externships. For more information about the petitioning process, view the [Petition Information](#) page.

Note: Petition meetings include program-specific breakout sessions that are typically two hours in length (and may run longer). Any student considering petitioning for more than one program for entry must attend a meeting for each program.
